

WimCO Presents

AI AS A PROFESSIONAL TOOL: A HANDS-ON LAB

Build Your Own AI Assistant— In One Evening

A hands-on lab for women in data centers and critical infrastructure to turn AI into a practical, job-specific advantage.

What You'll Walk Away With

- A working custom GPT or AI project tailored to your role
- A clear understanding of when and how to use different AI platforms
- A practical framework for privacy and data security in a professional setting
- A repeatable prompting methodology you can apply immediately
- A 20% discount toward future Women in AI Labs workshops

**MAY 14 AT
4:00PM**

Stack HQ, Denver
1700 Broadway, Second floor

**FREE REGISTRATION—
